Summary

I am a web developer . I recently completed a DSA in C++ & web development course from coding blocks, Which has given me the latest skills and knowledge in the web development industry , I learned practical skills in building websites for clients

My focus is on designing and developing website that looks great and work well . I am skilled in a range of programming language and platforms ,including HTML , CSS, JavaScript , React , Nodejs , MongoDB , I am seeking to work for different industries .

I enjoy working with other web developers and designers to make websites that match the client's brand and business objectives , I am committed to keeping up with the latest industry trends and Best practices , and I attend professional web development course to improve my skills.

My goal is to create websites that are both visually appealing and easy to use . I take pride in exceeding client expectations and delivering projects on time .if you are looking for a web developer with skills and experience , please feel free to get in touch with me .
